## Description

Designed for comfort to suit your fitness lifestyle

Equipped with 16 resistance levels and deluxe comfort seat, this dual action bike provides all fitness level users a complete total body workout at home with comfort and ease. It is a great choice for a low-impact workout that provides a high level of aerobic and cardiovascular exercise targeting upper body, lower body or both simultaneously to burn more calories in less time.

## EXCLUSIVE FEATURES & BENEFITS

### Dual Action for Total Body Workout

It provides a full cardiovascular workout, upper, lower and complete total body workout. The workout not only involve the user's leg and hip muscles but also the arm and shoulder muscles.

### 16 RESISTANCE LEVELS

Another way to add variety to your workout is to adjust the resistance. An intuitive resistance of 16 levels allows you to dynamically change the intensity of your workout by turning the knob.

### 12 Programs & Body Fat Function

Choose your favourite workout program from 1 manual program, 6 pre-programs, 1 body fat function, 1 user program , 1 target heart rate program and 3 heart rate control program.

### Deluxe Comfort Seat with Horizontal & Vertical Adjustment

The deluxe comfortable seat offers the greatest comfort with vertical & horizontal adjustment to provide optimum position to suit individual of different heights during workout.

#### Built-In Hand Pulse Sensor

Two hand-grip heart rate sensors are conveniently built-in to the bike's handlebar which enables you to stay in the right training zone for maximum results.

#### INFORMATIVE LCD WITH BLUE BACKLIT

It comes with blue backlit LCD display screen to feedback on Speed, Distance, Time, Calories Burn, Age, Watt and Target Heart Rate for easy tracking of your fitness goals.
