Description

EXCLUSIVE FEATURES & BENEFITS

EASY TO READ CONSOLE

The clear console displays essential readings - time, speed, calories burn, distance, incline and heart pulse for users to keep track of their workout performance.

AIR MOTION TECHNOLOGY

This technology creates an undercurrent to cushion the initial foot strike and enhance the toe-off when running on the treadmill. It encourages proper form and helps to improve running efficacy.

27 PROGRAMS

P01 – P24 preset programs- These are preset programs in which the treadmill's speed or incline will be changed automatically during the workout. Besides that, U01-U03 user defined programs allows user to customize the speed and incline for a personalized workout.

PULSE GRIPS & SOFT TOUCH HANDLE BARS

By gripping the pulse sensors located on both handlebars, users are able to monitor their heart pulse rate reading during workout to achieve their fitness goal.

DIRECT SPEED AND INCLINE BUTTONS

The Jet 300 can reach a maximum speed of 20kph & incline up to 15%. Users can easily select the desired speed/incline via the incremental buttons on the console, or the direct speed/incline keys to progressively take users straight to the desired pace.

SOFT-DROP HYDRAULIC FOLDING MECHANISM

The Jet 300 can be folded up easily for space-saving and lowered down gently when needed.

SPECIFICATIONS

Motor Horse Power	2.5HP DC Motor
Speed Range	1-20km/h with direct speed control
Computer	7" white LED windows
Incline	0-15% with direct incline control
Programmes	27 programs
Hand Pulse Sensors	Yes
Running Deck (LxW)	150 x 51 cm / 59" x 20"
Cushioning	Air Motion Technology
Maximum User Weight	140Kg/308.6lbs
Net Weight/Gross Weight	87/100kg / 191.8lbs/220.4lbs
Transport Wheels	Yes
Compatible Music Port	MP3 compatible with integrated speakers (media hub with USB port)
Foldable	Soft-drop Hydraulic Folding Mechanism
Transport Wheel	4 wheels
